EPLO/IBF project in Jordan

The EU funded project in Jordan “Enhancing the Media and Communication Ecosystem and Institutional Environment” was successfully finalised

The project, "Enhancing the Media and Communication Ecosystem and Institutional Environment in Jordan, (EU FWC SIEA 2018) was an initiative from the EU Commission to support the newly established Jordanian Ministry of Government Communication (MOGC).

From October 2023 until January 2025, the EPLO/IBF project team worked to holistically support the MoGC in becoming an enabler of a thriving media ecosystem in Jordan, with targeted outputs aiming to strengthen MoGC's infrastructure, capacities, policies, and frameworks while ensuring alignment with EU and international best practices.

EPLO is proud to have led this project in cooperation with **IBF Impact**.

Congratulations to the efficient project team and especially to the Team Leader, **Mrs. Maha Khatib**, for her strong dedication, exceptional efforts and excellent team leading skills.

Congratulations to the whole project team (**Ahlam Shabaneh, Humdallah Mubarak, Yazan Haddad, Lola Lyberopoulou, Lea Stavrou, Laura Carrasco, Tatiana Kochubeeva**) for managing to accomplish efficiently all the challenging and ambitious project objectives.
